ODYSSEY[®] Extreme SERIES™

Tin Alloy Coated Brass Terminals
Brass terminals coated with a high-quality tin alloy ensure secure, corrosion-free cable connections

Pure Lead Plates
Constructed from 99.99% pure virgin lead, ODYSSEY battery plates are extremely thin, so more of them can fit into the battery. More lead plates equals more power.

Robust Intercell Connections
Built to stringent specifications, cell connectors are cast to the plates, and bonded to resist vibration and eliminate internal sparking.

Available Metal Case
Selected ODYSSEY batteries are available with metal casing for high heat applications.
